TESTIMONIAL

" Without scheduling, we could not guarantee the consistency that our customers require and with C3 Reservations we have found a platform that we can grow with. The C3 implementation team allowed us to get online quickly and painlessly - they are a first class organization. "

Senior Vice President of Operations

ADVANCE AT YOUR OWN PACE

C3's unique approach allows each customer to model business processes with a level of automation that is manageable and realistic. C3 Reservations works in stand-alone mode or as part of any supply chain systems, including C3's Yard Management System.

## PAY ONLY FOR WHAT YOU NEED

C3 Reservations is a cost-efficient system because of its usage-based pricing model: You pay for a solution that fits the size of your operations, not the size of your software.

C3 Yard

YARD MANAGEMENT SOLUTION

C3 YARD HIGHLIGHTS

C3 Yard provides the ability to automate your yard operations. It will manage your gates, provide visibility on trailers and shipments and will dramatically increase the productivity of your yard drivers and dock workers. Because of our **scalable software design**, features can be added as your operations grow.

Multi-site system
that allows customers to manage their yard operations at the enterprise level.

Shunter process optimization
through automated task assignment and optimized trailer movements. C3 Yard's mobile shunter app provides clear instructions to yard drivers and tracks the execution.

Centralized appointments
to efficiently manage your dock doors and increase your yard throughput.

Gatehouse management
offering simplified screen & streamlined process involving pre-arrival visibility, gate pass printing, regulatory and safety checks enforcement and intelligent trailer putaway functions.

Tailor-made
to reflect unique business processes, specific terminology and data requirements.

User friendly features
including drag and drop shunter task creation, mobile applications and business rules.

Real time visibility
on yard activity: colour-codes, zoom function, complete yard inventory, and one-click access to vehicle details and history.

Exception alerts
for time-sensitive events requiring your attention (e.g. idle shunter drivers, late arrivals / departures, refused shunter tasks, trailers sitting at door for too long, etc.).

Data integration
to other supply chain systems such as TMS and WMS for increased automation and extended visibility.

Tracking & sequencing
for your yard operations based on your unique yard processes.
