

DATA SHEETS

Reservations

Maximizing your assets with a high-powered
SCHEDULING SOFTWARE

Intuitive Scheduling Interface
Intuitive calendar view, drag'n'drop functionality and real-time updates

Still Working With Spreadsheets?

C3 Reservations will improve your speed and flexibility at each step of your scheduling process.

Intelligent Planning

Build a flexible plan around your unique business requirements and constraints. You will have a plan for each facility to determine who can deliver what, where and when.

Synchronized Communication

Everyone in your network will be connected to a single hub, and receive automatic messages triggered by the actions you take and the changes you make.

Automated Scheduling

No more phone tag, voice mail or swamped inbox. The shared online portal organizes and automates the appointments.

Measuring Your Success

Monitor and improve your operations with real-time information and reports that help you enforce compliance and accountability.

Cloud based - Working for you 24/7

A powerful suite of tools that will completely transform your scheduling activities.

- ✓ Synchronizing appointment requests with availabilities
- ✓ Providing visibility on the status of each of your appointments
- ✓ Applying customized constraints and rules
- ✓ Automating communications to all parties involved
- ✓ Measuring the performance of your business and partners

Highly Automated

- ✓ Fully configurable
- ✓ Advanced Schedule Constraints
- ✓ Flexible Unload Duration
- ✓ Calculation Rules
- ✓ Global Visibility
- ✓ Automated Notifications
- ✓ Enterprise System Integration
- ✓ Document Attachments
- ✓ Quality Assurance
- ✓ Printable Gate Pass
- ✓ Powerful Reporting Capabilities

ROI / What to expect

- ✓ 90% reduction in phone calls / emails / faxes
- ✓ 50% reduction in time spent scheduling
- ✓ Overtime labor savings
- ✓ Chargeback processing and compliance reporting

Mobile: Anywhere, Anytime

Allowing warehouse and yard personnel to easily capture time stamps related to arrival, on dock and departure times. No app download necessary.

Operate At Optimal Capacity

We help you maintain consistent levels of inbound and outbound traffic by setting up constraints around the variables unique to your operations, be they staffing levels, load types and carriers or volume restrictions. You'll have a snapshot of your real capacity that will guide you in the decision-making process.

Advance At Your Own Pace

C3's unique approach allows each customer to model business processes with a level of automation that is manageable and realistic. C3 Reservations works in stand-alone mode or as part of any supply chain systems, including C3's Yard Management System.

Pay Only For What You Need

C3 Reservations is a cost-efficient system because of its usage-based pricing model: You pay for a solution that fits the size of your operations, not the size of your software.

Carrier / Supplier Web Portal

Self-serve portal - easy to use - Available 24/7

“ Without scheduling, we could not guarantee the consistency that our customers require and with C3 Reservations we have found a platform that we can grow with. The C3 implementation team allowed us to get online quickly and painlessly - they are a first class organization.

- Senior Vice President of Operations

Yard

Maximum Efficiency - Highly Automated
YARD MANAGEMENT

Gain visibility

on yard and improve operational processes.

Improve inventory management

now what inventory is sitting in the yard and where. Provides visibility down to the SKU level.

Exceed customer service levels

C3 Yard helps plan daily DC activities to ensure on-time deliveries.

Drastically reduce detention costs

monitor trailer dwell time and automatically notify carriers as trailers become available.

Maximize investment

in WMS, TMS and ERP systems - C3 Yard can be integrated to communicate with other supply chain systems.

Improve dock management

avoid double handling, reduce congestion at docks and optimize door utilization.

Optimize task assignment and the use of resources

reduce trailer fleet, reduce number of required yard truck drivers (shunters) and maximize their efficiency.

C3 Yard Highlights

C3 Yard's provides the ability to automate your yard operations.

It will manage your gates, provide visibility on trailers and shipments and will dramatically increase the productivity of your yard drivers and dock workers.

Because of our **scalable software design**, features can be added as your operations grow.

ROI / What to expect

90% reduction in phone calls / emails / faxes

25% Reduction in yard trucks

30% Increase in dock productivity

25% Increase in driver productivity

15% Reduction in fleet trailers

Less than 12 months for guaranteed ROI

Because your industry is unique

Since its founding in 2000, C3 has gained the confidence of clients around the world and across many industries:

▶ TRANSPORTATION & LOGISTICS

▶ MANUFACTURING

▶ PARCEL POST

▶ GROCERY

▶ RETAIL

▶ PROPERTY MANAGEMENT

▶ BULK HANDLING

Multi-site system

that allows customers to manage their yard operations at the enterprise level.

Dock scheduling

to efficiently manage your dock doors and increase your yard throughput.

Gatehouse management

offering simplified screen & streamlined process involving pre-arrival visibility, gate pass printing, regulatory and safety checks enforcement and intelligent trailer putaway functions.

Integration

to other supply chain systems such as TMS and WMS for increased automation and extended visibility.

Business rules engines

that drive yard operations based on unique yard processes.

Exception alerts

for time-sensitive events requiring your attention (e.g. idle shunter drivers, late arrivals / departures, refused shunter tasks, trailers sitting at door for too long, etc.).

Configurable screens

to reflect unique business processes, specific terminology and data requirements.

User Friendly Features

including drag and drop shunter task creation and business rules.

Shunter process optimization

through automated task assignment and optimized trailer movements. C3 Yard's mobile shunter provides clear instructions to yard drivers and tracks the execution.
