C3 HIVE

Connecting the Shippers, Carriers and Drivers of the Global Supply Chain

REAL-TIME VISIBILITY PLATFORM

24/7 Visibility for C3 Users

Where Advanced Visibility Meets Powerful Yard and Dock Management

With C3 Hive, drivers can opt for an **advanced check-in,** notify the operation if they are unexpectedly delayed, or request an earlier arrival time if they are ahead of schedule.

In addition, the platform enables the operation to constantly remain in communication with drivers while they are on-site. This further reduces the need for human contact with drivers without compromising real-time communication of their trailer loading/unloading status.

Operational Benefits

- Self Check-in at the Gate
- Contact-Free
- Global Visibility
- Shipper of Choice
- Continuous Communication
- Maximal Activity

Over 20 Years of Expertise • 1,200 Global Sites • 160 000 Active Users Worldwide

ROI Benefits

AT THE GATE
REMOVE UP TO
100% of gate labour by eliminating data-entry and all manual processes.

AT THE DOCK
IMPROVE THROUGHOUT ON DOORS BY UP TO
15% through removal of dead time caused by idle dock crew.

AT THE SITE
ELIMINATE UP TO
100% driver detention fees by ensuring on-time or early slot and vehicle optimization.

AT THE SITE
ELIMINATE UP TO
25% of transport clerk tasks, removing the need for assigning drivers to routes.

AND...BECOME A SHIPPER OF CHOICE!

Still Playing the "Arrival Time Guessing Game"?

C3 Hive allows for C3 Hub customers to self-check in drivers, thus reducing the need for gate staff, as well as minimized contact with drivers.

C3 Hive is an online platform that allows carriers and drivers to provide real-time status updates on deliveries to C3 managed facilities.

One Step Ahead of the Game

C3 Hive enables real-time communication with drivers once they have arrived on-site, including driver self check-in and other important instructions related to their on-site tasks.

C3 HIVE

Connecting the Shippers, Carriers and Drivers of the Global Supply Chain

REAL-TIME VISIBILITY PLATFORM

Who is Using C3 Hive?

Shippers

An intelligent, automated and highly-configurable Dock Scheduling and Yard Management software that leverages real-time visibility. C3 Hive gives you the added control you need to improve your sites productivity and throughput.

Real-time communication with drivers before they arrive and, upon arrival, allow your operation to safely improve site velocity.

✓ Reduce labor costs at the gatehouse through automated site check-in.

✓ Gain accurate visibility of incoming drivers, including real-time driver ETA

✓ Communicate with drivers once they have arrived on-site, including site directions and door assingnments

✓ Increase site throughput by pro-activilly moving up appointment times of early drivers to fill gaps created by delayed drivers.

✓ Safely maintain communication with drivers while they are on-site (mask not required), and maintain social distancing by allowing drivers to perform their site check-in on their mobile phones.

Carriers

A unique portal to consolidate all of your C3 Reservations, reducing multiple logins and delivering a unified view of all appointments for smarter management.

Reduce the chance of your drivers being delayed on-site and increase your asset utilization.

✓ Gain additional productivity out of your drivers and their equipment due to advanced check-in

✓ Improve CSR productivity via a consolidated view of activity for all C3 Reservation customers

✓ Offer a safer work environment to your drivers by avoiding unnecessary on-site contact

Drivers

An easy to use, driver friendly application that keeps you on the road by minimizing delays at each of your stops.

Gain preferred status to your customer's locations by performing pre check-ins for your appointments. Once on-site check-in with your mobile phone in the comfort of your truck.

✓ Drive more miles due to reduced waiting time and preferred status by performing pre check-ins

✓ Easily communicate any delays that are experienced en route to your appointment.

✓ Get unloaded earlier than your appointment time

✓ Receive constant on-site updates of loading/unloading progress and/or door assignments

✓ Easily accessible via a link without needing to download an app.

Award-Winning Application
