

# Yard

Maximum Efficiency - Highly Automated  
YARD MANAGEMENT

## Gain visibility

on yard and improve operational processes.

## Improve inventory management

now what inventory is sitting in the yard and where. Provides visibility down to the SKU level.

## Exceed customer service levels

C3 Yard helps plan daily DC activities to ensure on-time deliveries.

## Drastically reduce detention costs

monitor trailer dwell time and automatically notify carriers as trailers become available.

## Maximize investment

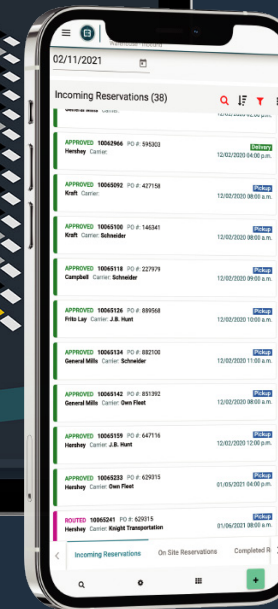

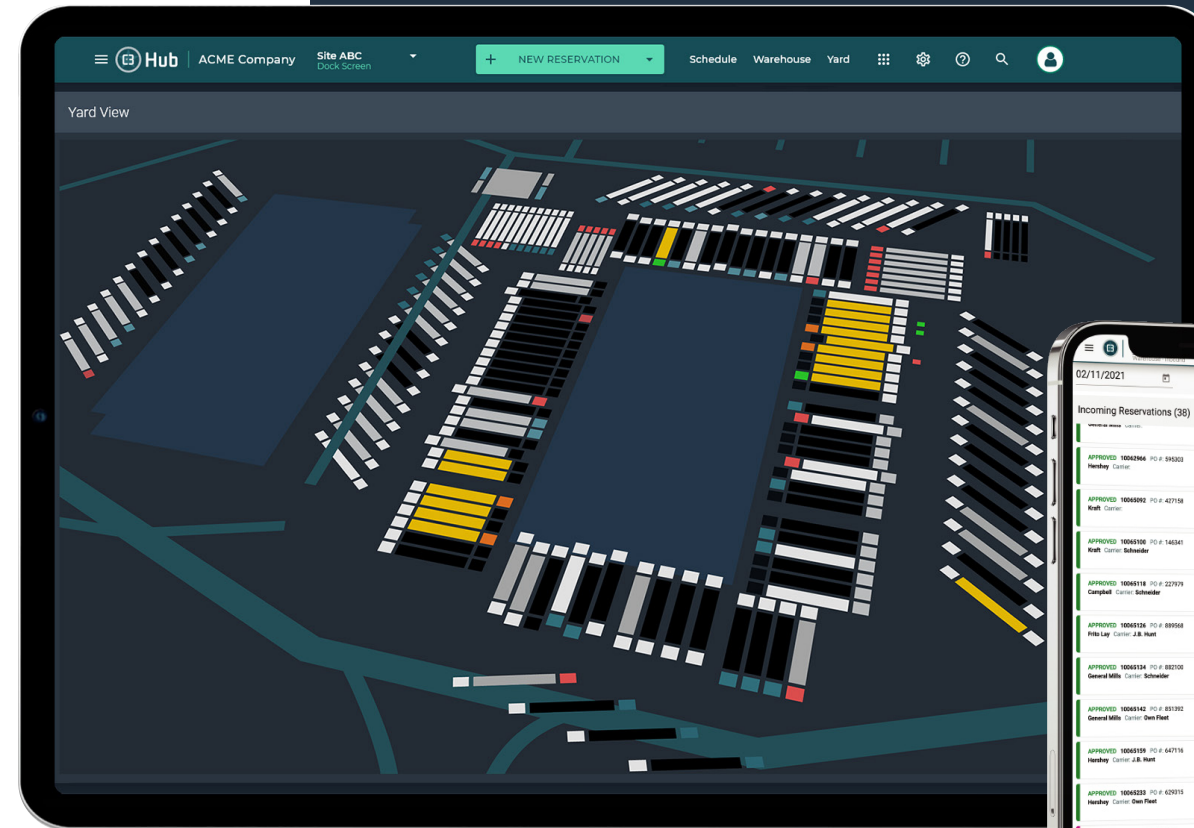

in WMS, TMS and ERP systems - C3 Yard can be integrated to communicate with other supply chain systems.

## Improve dock management

avoid double handling, reduce congestion at docks and optimize door utilization.

## Optimize task assignment and the use of resources

reduce trailer fleet, reduce number of required yard truck drivers (shunters) and maximize their efficiency.

## C3 Yard Highlights

**C3 Yard's provides the ability to automate your yard operations.**

It will manage your gates, provide visibility on trailers and shipments and will dramatically increase the productivity of your yard drivers and dock workers.

Because of our **scalable software design**, features can be added as your operations grow.

## ROI / What to expect

**90%** reduction in phone calls / emails / faxes

**25%** Reduction in yard trucks

**30%** Increase in dock productivity

**25%** Increase in driver productivity

**15%** Reduction in fleet trailers

**Less** than 12 months for guaranteed ROI

## Because your industry is unique

Since its founding in 2000, C3 has gained the confidence of clients around the world and across many industries:

TRANSPORTATION & LOGISTICS

MANUFACTURING

PARCEL POST

GROCERY

RETAIL

PROPERTY MANAGEMENT

BULK HANDLING

## Multi-site system

that allows customers to manage their yard operations at the enterprise level.

## Dock scheduling

to efficiently manage your dock doors and increase your yard throughput.

## Gatehouse management

offering simplified screen & streamlined process involving pre-arrival visibility, gate pass printing, regulatory and safety checks enforcement and intelligent trailer putaway functions.

## Integration

to other supply chain systems such as TMS and WMS for increased automation and extended visibility.

## Business rules engines

that drive yard operations based on unique yard processes.

## Exception alerts

for time-sensitive events requiring your attention (e.g. idle shunter drivers, late arrivals / departures, refused shunter tasks, trailers sitting at door for too long, etc.).

## Configurable screens

to reflect unique business processes, specific terminology and data requirements.

## User Friendly Features

including drag and drop shunter task creation and business rules.

## Shunter process optimization

through automated task assignment and optimized trailer movements. C3 Yard's mobile shunter provides clear instructions to yard drivers and tracks the execution.
